AL-Shifa innovation	Full Stack Development	continue

EDUCATION

2025	● UNIVERSITY OF NAROWAL	
	BSCS&IT	2.96
2021	● GUJRANWALA BOARD	
	Intermediate	B
2018	● GUJRANWALA BOARD	
	Matric	A

PROJECT

● Pharmacy Management System

Pharmacy Management System to streamline operations and improve patient care. The system will automate inventory management, billing, and reporting. Implementation will take 8 weeks, with ongoing training and support. The system will enhance efficiency, reduce costs, and improve patient safety. Some language are use CSS JavaScript HTML

● 3D Game

For my final year project, I worked as a 3D Character Artist for a 3D game. I designed and modeled characters using Blende. Creating detailed UV maps, textures, and materials. I rigged and animated characters for smooth in-game movement and optimized models for high performance. I integrated characters into Unity and tested their functionality within gameplay. This experience improved my skills in 3D modeling, texturing, rigging, and game development.
